EXPERIENCE

White Cup, Garden City ID — Senior Web Developer

JAN 2020 - AUG 2023

- Effectively led onshore and offshore teams in a senior developer role for the White Cup CRM Project, adeptly navigating and overcoming language barriers to facilitate seamless collaboration between both teams.
- Took code from basic to MVP in just 2.5 months. Directed and implemented interface changes and enhancements, functional enhancements custom tailored to the Distribution industry.
- Implemented a fully featured CRM application with a vertical focus on the Distribution Industry and BI.
- Effectively oversaw Jira projects, workflows, permissions, and users to ensure streamlined project management. Revamped project boards and introduced sprints to enhance work management in a Scrum environment.
- Achieved a monthly release cadence orchestration, overseeing daily pull requests and conducting thorough code reviews.
- Designed and executed the integration of e-commerce functionalities into the CRM project, concurrently incorporating Google products like email and calendar to augment overall project capabilities.
- Engaging in and overseeing numerous projects at the company facilitated the development of full-stack skills, encompassing UI design and development, as well as backend database management.

Freelance, Perrysburg OH — Web Design and Development

DEC 2017 - JAN 2020

- Demonstrated expertise in HTML, CSS, JavaScript, and other relevant web development languages. Stayed abreast of industry trends and emerging technologies to implement the latest features. Implemented responsive design principles to ensure optimal user experiences across various devices.
- Proficient in Adobe Photoshop, Illustrator, and Premiere for client projects. Applied graphic design and video editing skills to enhance website aesthetics and multimedia content.

JIRA/Confluence

Tour de Force, Findlay OH — *Web Application Developer*

JAN 2015 - NOV 2017

- Led internal web development initiatives for Marketing, Channel Partner, Connections, and Support sites. Skillfully built and maintained all four websites, resulting in a notable increase in the adoption of our support site among clients.

- Developed both customer-facing and internal APIs to interface with our Tour de Force database, enabling customers to seamlessly access support and knowledge base (KB) information.

- Transformed the CRM user experience (UX/UI) through a comprehensive redesign and introduced a responsive/mobile-friendly design using the Bootstrap framework. This initiative enabled us to strategically deprioritize mobile app development efforts.
